Math | Learn math online - The Society of Automotive Engineers (SAE) has established a numerical code system for grading motor oils according to their viscosity characteristics. The original viscosity grades were all mono-grades, e.g. a typical engine oil was a SAE 30. This is because as all oils thin when heated, so to get the right film thickness at operating temperatures oil manufacturers needed to start with a thick ... Motor oil - Wikipedia - Important Note: Several of these templates will only work with SMART Notebook 10.If you are not running version 10, you will need to update your Notebook software.Install the SMART Board software version 10.
